+6285795061119 | mohamadsyalvasr@gmail.com | https://linkedin.com/in/mohamadsyalvasr | https://ohamadsyalvasr.github.io
Sukabumi, West Java

A computer engineering graduate with over 3 years of professional experience as a web developer, specializing in full stack Laravel development. Demonstrates a deep understanding of web application development, proficient backend programming, and user interface design. Possesses abilities in managing databases, developing APIs, and optimizing application performance. Currently seeking a challenging opportunity to leverage my technical expertise and unwavering passion for innovation to make a significant contribution as a Web Developer within a dynamic organization. Furthermore, I have valuable experience in Digital Marketing, Graphic Design, Cloud technologies, and Teaching, further enriching my diverse skill set.

Education

Polytechnic Sukabumi – *Sukabumi, West Java*   Oct 2016 - Sep 2019
Associate Degree in Computer Engineering, 3.86/4.00

- I have experience as a assistant lecturer, providing guidance to students, conducting tutorial sessions, and supporting course material development. This experience has enhanced my understanding of the subject matter and honed my communication and leadership skills.
- As the top graduate of the year 2019 in Computer Engineering

API Penetration Testing Program   Mei 2023 – Jul 2023 (Expected)
Certificate in API Penetration Testing
- Completed self-paced, classroom-based skills development and training program on API Security
- Learn about the API Reconnaissance, Endpoint Analysis, API Authentication Attacks, Exploiting API Authorization and API Testing.
- Learn about various tools to analyze APIs, find vulnerabilities, and keep APIs secure: including Arjun, Burp Suite, Gobuster and others.

AWS re/Start Program – *Jakarta, DKI Jakarta*   Dec 2022 - Mar 2023
Certificate in Cloud Computing

- Completed full-time, classroom-based skills development and training program on IT fundamentals, AWS Cloud, and professional skills.
- Built IT fundamental skills, including: working knowledge of Linux OS, writing scripts in Python and Shell.
- Learned how to apply core AWS services in the areas of compute, storage and networking; including EC2, S3, IAM, VPC, Lambda, Cloud Formation, RDS and Route 53.
- Demonstrated strong verbal and written communication skills, including the ability to explain technical information and terminology to non-technical end users.
- Learned how to configure, monitor, and support the suite of core AWS services.

API Specialty Program   Sept 2022 - Mar 2023
Certificate in API Specialty
- Completed self-paced, classroom-based skills development and training program on API Designer, API Security Architect and API Product Manager
- Built API fundamentals, including fundamental knowledge of APIs, API economy, API design and API lifecycle.
- Learned how to secure APIs using modern architectures: including OAuth 2.0, OpenID Connect and JWT
- Learned how to manage APIs as products.

AWS Academy Cloud Developer – *Jakarta, DKI Jakarta*   Sept 2022 – Oct 2022
Certificate in Cloud Developer
- Completed full-time, classroom-based skills development and training program on AWS Academy Cloud Developing
- Built IT fundamental skills, including writing scripts in Python.
- Learn about DevOps tools on AWS: including Elastic Beanstalk, Fargate, ECS, EKS, Lambda, API Gateway, DynamoDB

GitOps Certification Program   Aug 2022 – Sept 2022
Certificate in DevOps
- Completed self-paced, classroom-based skills development and training program on codefresh academy.
- Learned how to configure, manage, and monitor Argo CD.
- Learned how to use Argo Rollouts for Blue/Green and Canary deployments.

Dicoding Academy Indonesia – *Indonesia*   2019 - 2022
Certificate in IT Technology
- Completed self-paced, course-based skills development and training program.
- Learn on multiple-path, like Back-end Learning Path, DevOps Learning Path, and Android Learning Path

Working Experience

Freelance   Sep 2019 - Present

Software Developer

- Maintain project progress by compiling and managing development schedules.
- Resolve technical issues related to the website, such as fixing bugs or addressing security issues.
- Evaluate web application needs and make recommendations for development.
